EXPERIENCE

Freelance Web Developer 2023 – 2024
Frontend Developer Remote

- Designed and developed responsive client websites using React, JavaScript, and SCSS, delivering pixel-perfect, mobile-friendly interfaces.
- Built reusable component-based architecture in React, significantly reducing development time across multiple client projects.
- Collaborated directly with clients to translate business requirements into functional, visually appealing web applications.

PROJECTS

AI-Based Music Interaction System | Python, OpenCV, MediaPipe 2024

- Built a **real-time, touchless** music control system mapping live hand gestures (play, pause, volume) to commands using MediaPipe and OpenCV.
- Achieved low-latency gesture recognition by optimizing the computer vision pipeline for sub-100ms processing across varied lighting conditions.
- Benchmarked recognition accuracy over multiple gesture types and environments, iterating on parameters to improve reliability by 30%.

EduPath – Career Guidance Platform | React, Node.js, JavaScript, MySQL 2024

- Developed a **personalized** career guidance web app aggregating government exams, entrance tests, and career pathways for students.
- Designed a dynamic timeline interface displaying upcoming opportunities with structured eligibility and selection insights.
- Built a centralized announcements module, reducing information overload and helping students make data-driven academic decisions.

QuantVista – Data Analytics Platform | Python, Power BI, DAX, Excel 2025

- Built an **end-to-end** analytics platform with Power BI dashboards and DAX-driven KPIs enabling real-time drill-down across business dimensions.
- Applied data transformation and statistical techniques to identify trends, patterns, and correlations across structured datasets.
- Delivered stakeholder-ready visual narratives and Excel-based supplementary reports for both technical and non-technical audiences.

EDUCATION

GITAM University August 2023 – May 2027
B.Tech in Computer Science Engineering (Cyber Security) Visakhapatnam, India

- Coursework: Data Structures, Algorithms, Operating Systems, Computer Networks, Database Systems, Statistics

SKILLS

Languages: Python, Java, SQL, JavaScript
Frameworks & Libraries: React, Node.js, Bootstrap, NumPy, Pandas, OpenCV, MediaPipe
Databases: MySQL, MongoDB
Tools: Git, GitHub, VS Code, Power BI, Excel

ACHIEVEMENTS & LEADERSHIP

- **Smart India Hackathon 2025** – Shortlisted at internal round, GITAM University.
