☎ +91 6304763942 ✉ navneethptnk123@gmail.com 🔗 LinkedIn 🐙 GitHub 📍 Vizag, India

OBJECTIVE

Detail-oriented Computer Science undergraduate with hands-on experience in data analysis, visualization, and statistical insight generation. Proficient in Python (Pandas, NumPy, Matplotlib), Power BI, DAX, SQL, and Excel. Seeking a Data Analyst role to apply analytical skills and a data-driven mindset to deliver actionable business insights.

EDUCATION

GITAM University

B.Tech in Computer Science Engineering (Cyber Security)

Visakhapatnam, India

August 2023 – May 2027

- Coursework: Data Structures, Algorithms, Database Systems, Operating Systems, Computer Networks, Statistics

SKILLS

Languages: Python, SQL, Java, JavaScript

Data Analysis & Visualization: Power BI, Microsoft Excel (Pivot Tables, VLOOKUP, Charts), DAX, Matplotlib, Seaborn

Python Libraries: Pandas, NumPy, Matplotlib, Seaborn, OpenCV

Databases & Querying: MySQL, MongoDB, SQL Querying, Data Cleaning & Transformation

Tools: Git, GitHub, VS Code, Jupyter Notebook

PROJECTS

QuantVista – Data Analytics Platform | *Python, Power BI, DAX, Excel*

2025

- Designed interactive Power BI dashboards with DAX-driven KPIs enabling real-time drill-down analysis across multiple business dimensions.
- Applied data preprocessing and transformation (cleaning, normalization, feature engineering) to improve dataset quality and analytical accuracy.
- Implemented statistical methods to surface patterns, trends, and correlations, translating complex data into clear, decision-ready visual narratives.
- Delivered Excel-based supplementary reports with Pivot Tables and advanced formulas, making insights accessible to non-technical stakeholders.

EduPath – Career Guidance Platform | *React, Node.js, MySQL*

2024

- Built and queried a relational MySQL database to store and retrieve exam schedules, user profiles, and personalized career recommendations.
- Designed a data-driven recommendation engine aggregating structured information on government exams, eligibility criteria, and career pathways.
- Developed a dashboard interface surfacing key metrics — upcoming deadlines, eligibility matches, and opportunity timelines — for actionable student decisions.

EXPERIENCE

Frontend Developer

Freelance Web Developer

Remote

2023 – 2024

- Gathered and interpreted client requirements, translating business needs into structured technical specifications — a data analyst core skill in an applied context.
- Built data-display components in React and JavaScript, presenting structured information clearly to end users across multiple client projects.
- Maintained clean, version-controlled codebases using Git and GitHub, ensuring traceability and collaborative workflow.

ACHIEVEMENTS & LEADERSHIP

- Smart India Hackathon 2025** – Shortlisted at internal round, GITAM University; contributed to a data-oriented problem statement.
